EXPERIENCE

Biztrip AI

San Francisco, California

Software Engineering Intern

Jan 2025 - Present

- Created an automated hotel price-drop rebooking feature and reusable Slack alerting service for an AI travel-booking platform.
- Improved map-based hotel search, fixing stale/incomplete results and adding on-demand "search this area" functionality.
- Implemented an ICS calendar along with booking email confirmations, allowing users to track the status of their trip.

Biztrip AI

San Francisco, California

Data Science Intern

May 2025 – September 2025

- Utilized python and sql to build a custom AI analytics agent enabling clients to query complex travel datasets using natural language.
- Created data pipelines to ingest and normalize historical travel data (flights, hotels, rental cars) used by the BizTrip AI travel planner.
- Built a feature to enable ad-hoc upload of new datasets into the analytics agent. Datasets are automatically parsed and stored and made available for analytics by the AI agent.

PROJECTS

Tatari
